

Product carbon footprint summary

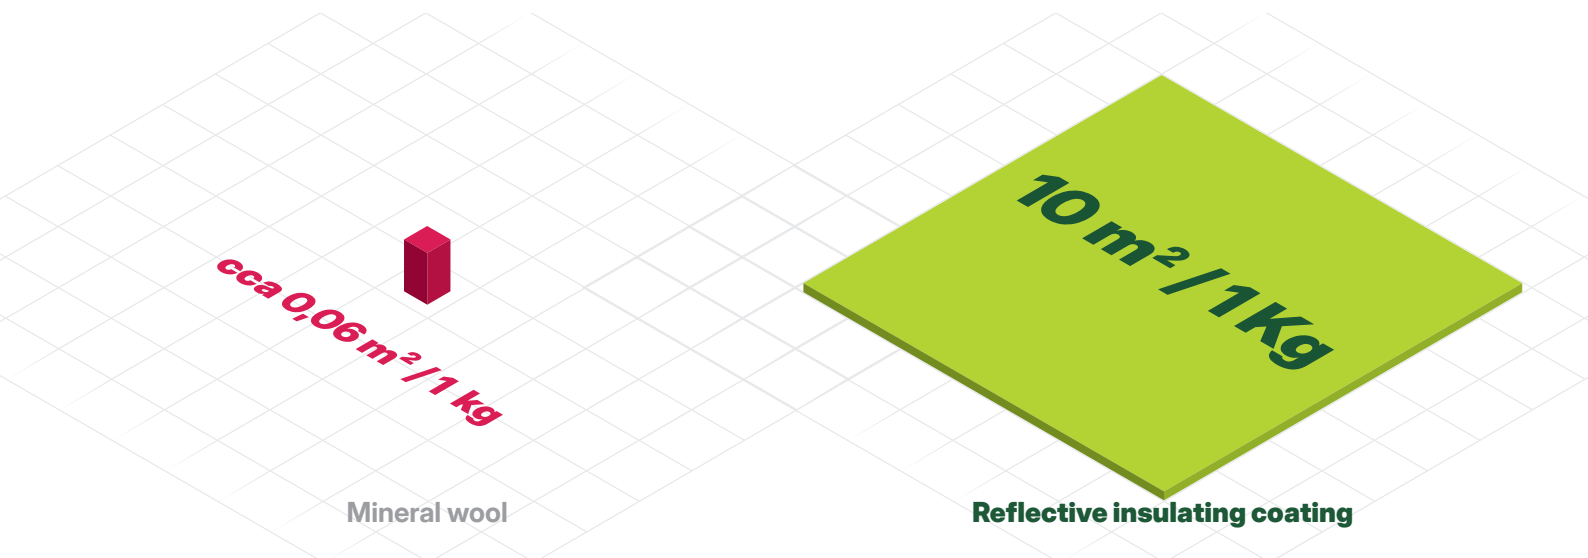

Total greenhouse gas emissions: 1,39 kg CO₂e

The product carbon footprint study and its report were conducted according to the ISO 14067:2018 methodology in a manner consistent with international life cycle assessment standards (ISO 14040 and ISO 14044).

Product name	THRcoating ALPHA Construction a ABAMAL
Declared unit	1 kg of product
System boundaries	from cradle to gate
Date of publication	28.2.2024

Comparison of Reflective Insulating Coatings THRcoating ALPHA Construction and ABAMAL with mineral wool

Application of 1 kg of product in an area

(Mineral wool 150 mm thick, 30 kg/m³, 17.7 kg whole pack, pack yield 1.2 m²)
(ABAMAL, 5 l - 2.7 kg, packing capacity 20 m²)
